

Chaldale Harbor District

Meeting date	Public Port Authority And Marina Operator Tuesday, 10 March 2026 6:00 p.m. 1400 Tidewater Way, Chaldale, WA 98554
Location	Commission Chambers, 1400 Tidewater Way, Chaldale, WA (360) 855-0442
Meeting type	Regular meeting (Minute type: REGULAR; public)
Presiding	Arlene Whitlock, President
Present	Whitlock, Barmore, Nystrom, Pell, Laskin (quorum of five)
Staff present	R. Calloway, G. Fjell, J. Merithew, S. Quill, D. Ivers

1. Call to Order; Roll Call

President Whitlock called the meeting to order at 6:01 p.m. All five commissioners answered present.

2. Agenda; Minutes

The agenda was approved 5-0 on motion by Commissioner Laskin. The minutes of 10 February 2026 were approved 5-0 on motion by Commissioner Nystrom.

3. Public Comment

One speaker. Ms. Ruth E. Mallory asked about the status of the state audit and whether her 2022 skip would be reviewed; the President referred her to the audit liaison and noted the District's response would be public when filed.

4. State Performance Audit -- Status Report

Administrative Services Manager Merithew, the District's audit liaison, reported that the auditor's preliminary exception schedule, received in the fourth quarter of 2025, lists 41 out-of-turn assignment items and 88 amendment-related items. She reported that the District's draft response, filed in the first quarter of 2026, agrees with the auditor's arithmetic on all counts and clears every item against Resolution 2022-06 section 4.3, with four residual documentation files addressed individually. She reported 227 staff hours on the out-of-turn assignment test workpapers and 19 hours on the amendment log review, and that remaining request-list items are being closed on schedule.

Information Systems Administrator Quill reported that the legacy vessel particulars amendment screen still logs only the workstation identifier HB-COUNTER-2, shared by nine staff, and that change request CR-0412 for user-identifier logging, open since 2021, remains unfunded; the migration deferral record remains in effect through the audit window.

Commissioner Pell asked whether the District's position on the amendment items depends on the missing user identifiers. Ms. Merithew answered that it does not: the response rests on the documentation standard of Resolution 2022-06 section 4.3 -- whether the certificate or haul-out record was on file -- and on the prospective application of that standard to pre-adoption amendments, not on the identity of the keying clerk. Commissioner Laskin asked about the calibration scoring exercise; Ms. Merithew reported 40 files scored in two passes, 120 individual scores, 31 unanimous on the first pass and 9 disagreements resolved on the second.

Commissioner Barmore asked whether any of the four residual files has since been cured. Ms. Merithew answered that the four files -- WL-02211, WL-02618, WL-03044, and WL-03390 -- remain cover-sheet-only, that the applicants were contacted, and that the exposure is addressed individually in the response. She noted that the file for WL-03102, by contrast, is fully supported by the Foldview Marine Services haul-out measurement sheet dated 2025-06-29.

5. Moorage Counter Operations -- Training Update

Deputy Harbormaster Fjell reported completion of the 2025 counter training cycle covering the four Schedule C reason codes (vessel-fit, not-current, declined-prior-offer, preference-mismatch) and measurement at check-in, and that all nine counter staff attended. No action taken.

6. Consent Agenda

Items 6.1 (February voucher register, \$402,558.19), 6.2 (January financial statement), and 6.3 (renewal of the harbors association membership) were approved on a single motion by Commissioner Nystrom, seconded by Commissioner Laskin. Motion carried 5-0.

7. Correspondence

The Clerk summarized correspondence: a request from the audit team for the calibration scoring materials (transmitted by the liaison), two waiting-list inquiries, and a letter from Foldview Marine Services confirming the 2026 haul-out rate schedule for district referrals.

8. Commissioner Comments; Adjournment

Commissioner Barmore asked that the final audit report be scheduled for presentation at a regular meeting when received. President Whitlock noted that final audit report activities are scheduled through 20 August 2026 and directed the liaison to calendar the item. The meeting adjourned at 7:12 p.m. on motion by Commissioner Pell, seconded by Commissioner Barmore, carried 5-0.

Minutes submitted by: Dolores Ivers, District Clerk / Commission Secretary

Approved: Arlene Whitlock, President (approved 14 April 2026)
