

Chaldale Harbor District

Date: 14 November 2025
Chaldale Port Authority And Marina Operator -- 1400 Tidewater Way, Chaldale, WA 98554

To: Henry Okafor (applicant WL-02770), 1601 Alder Street, Everett, WA 98201

Dear Mr. Okafor:

Thank you for your visit to the counter on 12 November and for your patience while we walked through your record. This letter confirms what we discussed. Your vessel of record, GRAY LINE, is recorded at 41.2 feet length overall. Covered slips at Ledgport and Vessbank are limited to vessels of 40 feet or less (Tariff Resolution 2019-14), so your record does not match covered vacancies; that is why recent covered offers have passed your position under the vessel-fit reason code of Schedule C.

You have three practical options: (1) keep your preferences as they are and wait for an open-basin vacancy that fits; (2) amend your recorded length by bringing us a measurement certificate or a haul-out record with the yard's measurement sheet -- if the true length is 40 feet or under, the amended record would then qualify you for covered vacancies (Resolution 2022-06 section 4.3); or (3) record a preference for open moorage, which is where most 40-plus-foot assignments occur. Foldview Marine Services can haul and measure if you want an independent figure; our own dock measurement at check-in is free but happens at the dock, not on the hard.

Your position and application date are not affected by the skips, and no fee is due until the December confirmation mailing. We appreciate how long you have waited and we will keep your record exactly as you direct.

Yours sincerely: Marla Tenny, Customer Service Lead
