Part 2 -- Petition for Reinstatement (received 2023-04-11)

Petition of Kevin D. Rhyne, applicant WL-01210, received at the moorage counter 11 April 2023. The petitioner states that the confirmation was mailed to an address he had left in October 2022, that his address amendment was received at the counter 2 November 2022 but recorded after the mailing file was prepared, and that he learned of the removal from a fellow applicant. The petition is accompanied by accrued retention fees of \$75.00 and the reinstatement fee of \$150.00 (receipt R-2023-0551).

Part 3 -- Order (2023-05-02)

The register confirms the petitioner's account: the address amendment was received 2 November 2022 and keyed 19 December 2022, after the mailing file was prepared 12 December 2022. The removal therefore resulted from a mailing to an address the District had been told was wrong. Under section 6.2, reinstatement is GRANTED, and in the circumstances the reinstatement fee is REFUNDED as a District error. Applicant WL-01210 is restored to the waiting list with the original application date of 17 August 2009, effective 2 May 2023. The counter is directed to key address amendments within five working days of receipt.
