Re: KVL Camps program - preliminary 2027 indication

08/05/2026

Ms. Suzanne Pell, Senior Account Executive

Rowan & Halloway Risk Partners, 77 Exchange Street, 4th Floor, Brennon, AV 04210

Dear Ms. Pell:

We have reviewed the KVL Camps submission, including the state finding letter, the scope-isolation memo, and the currently valued loss runs (status codes open / closed / reserved). The account's loss experience remains favorable across general liability, abuse/molestation, workers comp, and the umbrella; no claim on the runs arises from swim-ability assessment or aquatics supervision.

On the finding: if the corrective-action plan closes on schedule and the six-site sweep is documented as represented - one site unauthorized-and-examined, one cleared, four never-examined as a budget decision with a 2027 plan - we expect to offer the 08/01/2027 renewal at flat to +4% on the liability lines. If, however, the corrective action fails or the authorization gap proves to extend beyond the named site, underwriting would read this as a systemic controls failure, and the indication would move materially, with a possible coverage-line review on the abuse/molestation line. The open claims on the current runs are unaffected either way.

Please provide the CAP closure evidence and the sweep report by September 15 so the indication can be firmed before the fall marketing window. The season closing date of 2026-08-20 does not affect the 2026-27 binding, which is complete.

Very truly yours,

C. Alan Whitmore
